

2026 Maternal and Fetal Health Pay-for-Quality (P4Q) Program

Molina Healthcare of Mississippi, Inc

Molina Healthcare of Mississippi is committed to advancing maternal and fetal outcomes by rewarding OB/GYN Providers for delivering proactive, high-quality care. The Maternal and Fetal Health Pay-for-Quality program (MFH P4Q Program) is a quality bonus payment program that recognizes eligible providers who demonstrate the best quality of care for Health Plan MFH P4Q Program members based on their performance in the quality measures. Together, we aim to improve outcomes for mothers and babies across Mississippi.

Eligibility Criteria

- Must have a minimum of 10 members attributed for each quality measure to be incentivized.
- Eligible Provider achieves the NCQA Medicaid HMO percentile or Health Plan supplied benchmark for the Quality Measure
- All other MFH P4Q Program requirements are met.

The Quality Measures are consistent with Program Year NCQA, HEDIS®, and Medicaid national quality performance standards, technical specifications, and requirements.
