Welcome to Molina Healthcare

This is your provider directory. This provider directory lists the doctors and specialists in your area who work with Molina Healthcare (Molina). This is called our network. We also list the names and locations of hospitals, urgent care centers, facilities, pharmacies and dentists who work with Molina.

We are always working to add new providers and facilities to our network. To see the most up-to-date list, use our Find a Provider tool on our website at www.MolinaHealthcare.com.

Important phone numbers

Member Services	(800) 424-5891 (TTY/TDD: 711) We're here Monday-Friday 8 a.m. to 6 p.m. MST
24/7 Nurse Advice Line	(800) 424-5891 (TTY/TDD: 711) Our Nurse Advice Line is available 24/7, every day of the year. The Nurse Advice Line is staffed with nurses who can help you get the information and services that you need. Our Nurse Advice Line nurses can help you with things like: • Deciding when to visit your doctor, or go to an urgent care or emergency room (ER); • Understanding your medications and how to take them safely; • Answering health questions about your child's fever, help with managing a health condition like diabetes or have any other health concerns; • Learning about checkups or preventive care.
24/7 Arizona Statewide Behavioral Health Crisis Hotline	(844) 534-4673 (HOPE) This is here if you or someone you know is experiencing a behavioral health crisis. You can call the Behavioral Health Crisis Line 24/7, every day of the year. If you have thoughts about harming yourself or someone else, you should get help right away by calling 911.

Your primary care provider (PCP)

We gave you a PCP when you joined Molina. This is the letter that came with your ID card. If you want to change your PCP, call Member Services at (800) 424-5891 (TTY/TDD: 711). If you have Medicare, you will get a PCP from your Medicare health plan.

Make sure to call your PCP to set up your or your child's first appointment. To make an appointment with your or your child's PCP, just call the PCP's office. The staff will help you set up your visit. Regular checkups each year help you stay healthy. Your PCP is also the first person to call when you're sick.

Your or your child's PCP could be a family practice provider, internal medicine provider or pediatrician (for children). Women can also choose to have an OB/GYN as their PCP.

Specialist visits

Your primary care provider is who you should see for most of your health care needs. Sometimes you might need specialty care. If you need specialty care, you'll need to talk to your PCP and get a referral to a specialist.

There are some times when you don't need a referral for a specialist:

- Women can see an in-network OB/GYN for preventive and routine services.
- You don't need a referral to see an in-network behavioral health provider.
- Members under 21 years old don't need a referral for dental and vision screenings with in-network dentists and vision providers.

Where to go for emergency care

An emergency is when you have an illness or injury that could cause serious injury or death if it is not treated right away.

If this happens to you or your child, call 911 or go to the closest emergency room right away. You don't have to call Molina first. You do not need to get pre-approval from us for emergency services. You can go to any hospital for emergency care, even if you are in another city or state. Let the hospital know you're a member of Molina and show them your member ID card.

Where to go for urgent care

Urgently needed care is care you need for a non-life threatening, sudden illness, injury or condition that isn't an emergency, but needs attention right away. Some examples of things you would get urgent care for are skin rashes, infection, flu, sprains and minor cuts.

If it's during the work day, call your primary care provider (PCP). If you're not able to get an appointment with your PCP, or if it's after-hours, you can go to one of the urgent care centers we work with. There is a section in this directory that lists urgent care centers.

Emergency transportation

If you are having a medical emergency and need a ride, call 911. We will pay for emergency transportation.

Get a ride to your medical appointments

Need a ride to your medical appointments? Please try to get a family member, friend or neighbor to help you get to your appointment. If you aren't able to find a ride, we'll help you get a ride. Call us at (800) 424-5891 (TTY/TDD: 711) to set up a ride. Please call at least 72 hours before your appointment.

How to use this directory

We have information on each of the listings to make sure you have the information you need to decide what provider or facility is best for you. If you have any questions about the information, or need help, please call Member Services.

There may be some symbols after a provider's name. This is what they mean:

◆	Tells you this provider is accepting new patients.
❖	Tells you this provider is not accepting new patients.
♿	Tells you the provider meets Molina's criteria for accommodating members with physical or cognitive disabilities. If you need specific information about the features at a provider's office, please call them and ask.
●	Tells you the provider has Board Certification in their field. This means they have taken a test or a series of tests to get a special recognition of their training and continued education in their field.
💻	This lets you know the provider offers a telemedicine option where you can talk to a provider over the phone or video chat.
✱	Federally Qualified Health Centers (FQHC)
E	Exam Room
EB	Exterior Building
IB	Interior Building
P	Parking
R	Restroom
S	Wheelchair Weight Scale
✓	Provider proficient in a language(s) in addition to English

Below is a list of other information that is listed under each provider's name.

Grp: If a provider is part of a group of providers, we'll list the name of the group in this field.

Type: This tells you the type of provider listed. This will help you know if they provide the type of care you need.

Avail: This lets you know what hours the provider or facility is open.

Ages: This tells you if a provider sees a certain age group of members.

Gender: This tells you the gender of the provider.

Lang: This tells you what languages (other than English) the provider speaks.

Hosp: If a provider see patients at a hospital (has privileges) we'll list the hospital(s) in this field.

Cult Comp: If providers completed cultural competency training, we'll let you know in this field.

Accred: This tells you if a hospital or facility is accredited and if so by whom.

Board Cert: This tells you the provider has Board Certification in their field. This means they have taken a test or a series of tests to get a special recognition of their training and continued education in their field.

What does “accredited” mean?

Accreditation is a process where experts evaluate and score a hospital or facility on how they care for patients and how well it's managed. Hospitals and facilities that earn accreditation must continue to have reviews to make sure they are still up to the standards. There are different levels of accreditation:

Accredited: The hospital or facility is following all of the guidelines and rules.

Preliminary accreditation: The hospital or facility went through a short review and passed, but there will need to be further review soon to make sure the hospital or facility is following all guidelines.

Conditional accreditation: The hospital or facility is following some, but not all of the guidelines. It will be reviewed again soon.

Provisional accreditation: The hospital or facility is not following many of the guidelines or it did not correct the issues found within 45 days after it was reviewed the first time.

Behavioral health services

We know that staying healthy is not just about your body. That's why we provide access to behavioral health services. This includes services for behavioral health conditions like depression, anxiety or misuse of drugs and alcohol.

You can find the list of behavioral health providers in this provider directory. To see a behavioral health specialist, call the number listed and make an appointment. You don't need a referral to see a behavioral health provider, but if you don't know which type of provider is right for you, talk with your PCP. He or she can help you decide what type of behavioral health provider can help you.

Children's Rehabilitative Services (CRS)

Children's Rehabilitative Services is a program for children with special health care needs. Through the AHCCCS Complete Care program, your child can get care at a Multi-Specialty Interdisciplinary Clinic (MSIC).

MSICs

An MSIC is a health clinic where children with special health care needs, including CRS members, can get medical care from different providers at one location. This includes specialists, community services, resources, and help from a care team. You should go to the MSIC location that is closest to where you live.

The following services are available at all MSIC locations listed below:

- Audiology
- Autism
- Cardiology
- Developmental Pediatrics
- Ear, Nose & Throat (ENT)
- Feeding Therapy
- Gastroenterology
- Neurology
- Neurosurgery
- Nutritional Therapy
- Occupational Therapy (OT)
- Physical Therapy (PT)
- Speech Therapy (ST)
- Plastic Surgery
- Orthopedics
- Urology
- Wheelchair Clinic
